

Field Worker's Report 07.12.05
Llwynypia Boys' and Girls' Club

Jodi Lloyd

Volunteers

- Met with Bev Hampson of Interlink to discuss volunteer recruitment. We will look to advertise for voluntary positions on the Interlink website. Bev also provided us with model formats for various volunteer policies etc.
- Am working in conjunction with the other development workers to produce a volunteer pack. We are hoping to have a draft of this completed by the next steering group meeting

Activities

- A bowling mat has been purchased and one of the volunteers is going to deliver bowling sessions
- I have met with a dance instructor to begin organising dance classes. Hopefully these will start in the new year
- I am looking into the possibility of arranging some Christmas activities in the club – possibly to include a trip, xmas quizzes, mass party etc.
- Shape it.org has provided us with 2 computers which members will now be able to use, although broadband will not be provided until approximately March next year.

Publicity

- I am in the process of developing a marketing plan to promote the club as a venue available for hire – this will include a piece in the local press & possibly communities 1st newsletter, a letter to community groups, a poster, and publicity via interlink.
- On December 15th I will be interviewed on GTFM - the purpose of this is to make people aware of the club and the services it offers, advertise the club as a venue available for hire and highlight the necessity for volunteers.
